LED Fixts – Housing Design, Manufacturer & Assembly for LEDFIXTS, PROBRITE & NEMALUX

Over 100 Aluminum & Steel Poles that we can Design and Produce for your Projects

- Our in-house test facility provides us a means to test full-scale poles and brackets under static and cyclic load conditions.
- Our poles undergo rigorous wind testing to ensure that they are wind resistant.
- We also perform a 3000-hour salt corrosion test to ensure that our pole can withstand the harshest environmental conditions
